Max and Meta: Colours

Max og Meta: Farver

The *Max and Meta* series is a vibrant new series for children about scientific phenomena - a series where children's curiosity for our wonderful natural world is at the centre. Aimed at 6+, each book covers a new topic, such as gravity, the moon, time and atoms. *Colours* is the second book in a series of seven.

Troels Gollander is one of Denmark's most popular writers of science literature for children and young adults,

Lars-Ole Nejstgaard is a cartoonist and illustrator of children's books, several of which have been adapted for film.

SYNOPSIS

Max and Meta explore the natural world around them with curiosity. Meta has a magic power: when she snaps her fingers, she can transport her and her friend, Max, to new places. In this second book, Max and Meta are talking about colours: how they occur and what signals they each send. And in the end, Meta's mum serves rainbow cake.

REVIEWS

"A wonderful new series, which merges fiction and non-fiction and presents scientific phenomena in an inspiring and curious way." – (School Start Magazine (Skolestart))

"The cartoon style and the topic conveyed through the dialogue between Max and Meta work in a compelling way. The level is accessible, and the few cherry-picked facts, wrapped in a funny story, work as a lever to further literature on the topic." – (Library Review (Lektørdtalelse))
