Max and Meta: Time

Max og Meta: Tid

The *Max and Meta* series is a vibrant new series for children about scientific phenomena - a series where children's curiosity for our wonderful natural world is at the centre. Aimed at 6+, each book covers a new topic, such as gravity, colours, time and atoms. *Time* is the fourth book in the series, comprising seven books.

Troels Gollander is one of Denmark's most popular writers of science literature for children and young adults,

Lars-Ole Nejstgaard is a cartoonist and illustrator of children's books, several of which have been adapted for film.

SYNOPSIS

Max and Meta explore the natural world around them with curiosity. Meta has a magic power: when she snaps her fingers, she can transport her and her friend, Max, to new places. In this fourth book, Max and Meta travel both back and forward in time. They meet dangerous dinosaurs and rescue a small girl from getting run over. Who is this girl? Her name is Josephine, just like Meta's mum. That's odd and also a bit scary. But luckily everything ends well - and the ending involves cake.

"A wonderful new series, which merges fiction and non-fiction and presents scientific phenomena in an inspiring and curious way." – (School Start Magazine (Skolestart))
