### SYNOPSIS

John Kenn Mortensen made his debut with what has become the bestselling book, *Sticky Monsters*. In this sequel, he once again reminds us that we share this world with monsters. He is nothing less than a virtuoso - mesmerising us with his intricately detailed artwork - and even managing to make us smile in the process too. The juxtaposition between the innocent children going about their daily stuff, and the weird twisted monsters lurking somewhere in the vicinity is more often than not rather comical.
