SYNOPSIS

'The Dream Catcher' uses the same hypnotic techniques that were introduced in *Jungle Dreams* and is meant as a read-aloud bedtime story about feelings and good dreams. The book helps the child to handle bedtime fears and contains sleep-inducing hypnotic techniques.

Hubert has lost his dream catcher and without it, he has trouble falling asleep. Therefore, he must go on a trip in the Dream Jungle to get help from his dear animal friends. Along the way, he has to deal with difficult emotions like disappointment, anxiety and anger. Luckily, Hubert has both sweet friends and a good imagination, and eventually he falls asleep...

The book also contains: facts about children's dreams, creative exercises for child and parents to handle nightmares and bedtime fears, a DIY dream catcher tutorial and sleep advice from Doctor Anna Knakkergaard.
