We buy more clothes than ever and the fashion industry produces new clothes at a rate never seen before. It is tough on our planet and the climate.

Lisa Bay is a Danish podcast host.

Karen Brül Birkegaard is Danish podcast host.

SYNOPSIS

Come along on a journey of exploration through the child's first cell, meet the first animal that walked on land, and travel out into space to see our own galaxy from up above.

The Radionauts love to discover new things about our fascinating world and they need all the help they can get from curious children on their exploratory journey, racing through the body, entering down into the sewer, or finding mystical animals at the bottom of the deep sea.

The Radionauts are known from their popular Danish science podcast for children. Since 2016, children from 4-10 have been able to send scientific questions to the podcast and over the years more than 2000 questions arrived. Here is the list of some of the most popular topics that children ask about: 1. The Human Being, 2. Nature, 3. Technique, 4. Animals, 5. Culture, 6. The Universe.

You do not have to know about the podcast to read the book - it is an exploratory journey that any child around the world will be able to relate to. The book is beautifully illustrated through-out by Maria Buchmann.

REVIEWS

"Really exciting book with a wide-reaching topic. Cool idea with the interactive element: the book is based on children's own questions. The layout of the book is gorgeous and accessible and when you read about the moon or volcanoes - then the text copies the shape (e.g. a half moon)." – (Lektørdtalelse (Library review))

In this fifth book, our two heroes (and the philosophical fly) examine the smallest building blocks of nature, the atoms. As usual, this is done with a good mix of imagination, magic and silly ideas. Max and Meta themselves turn into the atoms of a water molecule and meet Niels Bohr himself, who helps them understand what atoms are and how they are built.

REVIEWS

"A wonderful new series, which merges fiction and non-fiction and presents scientific phenomena in an inspiring and curious way." – (School Start Magazine (Skolestart))

"The cartoon style and the topic conveyed through the dialogue between Max and Meta work in a compelling way. The level is accessible, and the few cherry-picked facts, wrapped in a funny story, work as a lever to further literature on the topic." – (Library Review (Lektørdtalelse))

They also answer a lot of questions that children posed themselves:

- Why don't we just plant a lot of trees?

- Why is a cow fart extra bad for the climate?

Monsters - Beastly Creatures with Big Emotions

Monstre - Stygge skabninger med store følelser

Emotions explained through monsters in colourful new book for 6-9 year-olds.

Shane Brox (b. 1968) is an author and multi-media artist with more than 20 creative books under his belt.

SYNOPSIS

Welcome to the world of monsters!

In this book, you will meet 12 creatures whose roots go back a long time. Some of them are more than 2000 years old. Back then, monsters were a natural part of our reality. They gave us a language and helped us to understand some of the emotions that dominated our everyday life.

Feelings like anger, fear, sorrow and glee are all real, even the uncomfortable ones. And space should be given to all of them, as it allows us to show how we really feel.

Even if most of us don't believe in vampires and dragons nowadays, we still create monsters when we don't talk about our feelings. Then we create inner monsters. When we are hiding things, monster-large emotions develop in us and between people – just like in the old days.

If we are honest and talk about our emotions, they are easier to understand and accept and the chance of us being able to let go of them increases.

Meet *Mare* – the monster of fear, *Blemmya* – the monster of sadness, *Basilisk* – the monster of insecurity and *Krake* – the monster of love.

This book is based on an exhibition – *Monsters: Nasty Creatures with Big Emotions* - which took place in the ruins underneath Christiansborg.

Stine og Hannah
Dreyer

Book of Farts: an Encyclopeadia of Farts

Pruttebogen: leksikon over fimser

A funny and informative picture book with brilliant illustrations by Maria Buchmann. Sold in translation to Korean, Poland and Norway.

Stine Dreyer and **Hannah Dreyer** are the mother/daughter duo who let their imagination run free and created an encyclopedia of 23 different types of farts.

SYNOPSIS

Everybody farts! Even Queen Elizabeth and Justin Bieber. You probably know farts best from yourself, your family, and your friends. But how does a fart become a fart?

This is exactly what mother/daughter duo, Stine and Hannah Dreyer set out to examine and they have developed their own *Fartotology*, the teaching of farts and how they develop.

Some farts are noisy, some are completely silent - and all research shows that loud farts smell less whereas silent farts smell of death and destruction. You choose freely between pest or cholera: do you want to hold the fart back and risk that it develops into a *Silent Stinker*? Or do you prefer to release the *Firecracker*?

Something all farts have in common is that they are funny, even if they appear at the worst possible moments: in class, in the middle of a good game, during dinner.

This book invites curious children and their parents to talk about shared experiences with different fart types, including the *Bubbler*, the *Firecracker*, the *Horror Honk* and the *Serial Fart*.

SYNOPSIS

Through a series of stories, the child is encouraged to help the animals in the *Jungle Dreams* to find peace, so that both the child and the animals can fall asleep.

There are many reasons why the animal children have difficulty sleeping. The sloth, Susan, worries and ponders. The parrot, Petra, talks too much and isn't tired at all. The tapir, Tom, has a tummy ache and Lisa the Leafcutter Ant is afraid of the dark. Hank, the Howler Monkey has his head full of busy thoughts and Jason the Jaguar is struggling with growing pains.

The six stories in the *Jungle Dreams* are carefully developed and written so that the child can find help to deal with the most common problems connected with falling asleep.

In addition to the bedtime stories, the book offers hands-on advice and information on sleep, as well as tips on how to create the right atmosphere when reading aloud. The book is aimed at families with children aged 4-10 years.

In the home-market, the *Jungle Dreams* is available in App Store and Google Play where the stories can be played with soothing jungle music that continues after the story is over.

REVIEWS

"'Jungle Dreams' are stories on the children's premises combined with great professional ballast. These are stories that are easily accessible. Stories that normalize and acknowledge children's reactions at bedtime, and which in a simple way help the children to deal with difficult thoughts, feelings and bodily sensations. The stories help the children to provide self-care and master pondering at bedtime. Drawings and illustrations are beautiful." – Annette

Walsted - Psychologist, and mother of Benjamin (8 years) and Alexander (3 years) ()

"The book is easy to get started with and has good instructions for the adult along the way. It works very well with the "sleeping tips" in addition to the stories. Wonderful stories that help the child to relax, enjoy the breathing and form positive and imaginative stories in his head while he falls asleep." – Kathrine Lauritzen - Doctor, and mother of Jacob (7 years) and Emil (4 years) ()
