Vibe Termansen

Behind the Iron Curtain

Bag jerntæppet

A new book tells the story of the Cold War to children from 10+. Packed with cool illustrations by Mikkel Henssel.

Vibe Termansen (b. 1977) has an MA in History and Eastern European Studies and works as a freelance journalist, public speaker and moderator.

SYNOPSIS

In this richly illustrated book by Eastern Europe historian and journalist, Vibe Termansen, we find the answers to a lot of question about the Cold War. Who was Lenin and Stalin and how did they get millions of their own citizens to oblige? What was the infamous Iron Curtain which divided Eastern Europe from Western Europe until not so long ago?

REVIEWS

"The historian, Vibe Termansen, has written an enlightening and exciting book in which she tells the story behind the Cold War in an accessible language. The book's graphic expression is fantastic. Mikkel Henssel's illustrations transport the reader back in time, both in terms of form and colour. It is a big assignment to write historically about such a complex subject and it demands naturally that you prioritize and exclude certain subjects . Vibe Termansen succeeds in this regard. However, it does make me wonder why for example Reagan's role in the culmination phase of the Cold War is one of these exclusions." – (Lektørdtalelse (Library review)

"Excellently told. And just as excellently illustrated." – (Six stars in the *Pædagogen* (The Pedagogue magazine)

The Radionauts are known from their popular Danish science podcast for children. Since 2016, children from 4-10 have been able to send scientific questions to the podcast and over the years more than 2000 questions arrived. Here is the list of some of the most popular topics that children ask about: 1. The Human Being, 2. Nature, 3. Technique, 4. Animals, 5. Culture, 6. The Universe.

You do not have to know about the podcast to read the book - it is an exploratory journey that any child around the world will be able to relate to. The book is beautifully illustrated through-out by Maria Buchmann.

REVIEWS

"Really exciting book with a wide-reaching topic. Cool idea with the interactive element: the book is based on children's own questions. The layout of the book is gorgeous and accessible and when you read about the moon or volcanoes - then the text copies the shape (e.g. a half moon)." – (Lektørudtalelse (Library review))

Birgitte Klahn

Fantastic Philosophers

Fantastiske filosoffer

A wonderful and humorous book of philosophy for children about seven of the big thinkers and their childhood. With lovely illustrations by Charlotte Pardi.

Birgitte Klahn was born in 1992. She has a degree in philosophy and history and believes that it's never too early to start your journey into the world of philosophy and practice understanding yourself and the increasingly complex world around you.

Charlotte Pardi (b. 1971) has won the Danish Cultural Ministry's Illustrator Prize on several occasions and is loved for her gentle appealing artwork.

SYNOPSIS

In this book, you'll meet seven of our great European philosophers... as children: Søren Kierkegaard, Immanuel Kant, Friedrich Nietzsche, Jean-Paul Sartre, René Descartes, Simone de Beauvoir and Niccolò Machiavelli.

And in seven 'fictional' stories, built around each philosopher's childhood and youth, we see how their pondering, philosophising - and respective lead idea - emerge.

There's plenty of food for thought - and many fun conversations between children and adults. And an inspiring theme for a teaching programme for children in grades 0-4.

REVIEWS

"Charlotte Pardi's drawings really make the comedy in the situations and the philosophers' inner anguish crystal clear (...) The fact that the philosophers are children and not aging adults gives the whole book and its content an enviable lightness. (...) 'Fantastic Philosophers' is probably more of a prelude to a dialogue about some of life's difficult questions than an actual introduction to the philosophers' lives and overall meaning. That doesn't matter, because it makes the book inspiring. But you should probably allow extra time if you're using the book for bedtime reading!" – (Kristeligt Dagblad (Danish daily newspaper))

Book of Thoughts: I think, therefore I feel

Tankebogen: Jeg tænker, derfor føler jeg

Thoughts and emotions are inextricably linked. What we think creates our emotions and affects our mood.

Ina Victoria Haller offers a series of books that turn reading with children into a fun and educational activity.

Thomas Hjorthaab is a well-known Danish children's book illustrator whose art style is known to be funny, punk and bursting with emotion.

SYNOPSIS

Pleasant thoughts cause pleasant feelings and unpleasant thoughts cause unpleasant or difficult feelings. In other words, it's not always the situation you're in that triggers your emotions, but what you think about the situation.

Through this non-fiction book for children, you will experience a number of more or less neutral situations together with the two main characters that trigger completely different emotions in the two children. The hope is that by reading the book and talking about the story with an adult, children will understand the connection between thoughts and feelings. Such understanding is an important part of understanding their own and others' feelings and actions.

REVIEWS

"Well-written and easily comprehensible story which can form the foundation for a good conversation about the interplay between thoughts and emotions. The questions and tasks are simple and are a good help in deciding what you - as an adult - should focus on along the way." – (Lektørdtalelse (Library review)
